DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/22/2006 has been entered. Claims 1-5, 7, 8, 10, and 13-15.

Allowable Subject Matter

Claims 1-5, 7, 8, 10, and 13-15 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-5, 7, 8, 10, and 13-15 are neither anticipated nor made obvious by the prior art of record.

In regard to claims 1, 10, and 15, the prior art fails to disclose a primary grating; an incoherent light source; a first reference grating disposed between the light source and the primary grating; a photodetector; and a second reference grating disposed between the photodetector and primary grating; wherein the primary grating, the first reference grating and the light source are configured for movement relative to one another; wherein a period T_r of the first reference grating and a period T of the second reference grating are related to a period T_s of the primary grating by the formula: $1/T + 1/T_r = 1/T_s$; such that the light from the light source remains incoherent as it impinges on the first reference grating, the primary grating, and the second reference grating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
